JOBPATH EMPLOYMENT WORKSHOPS

2023 enrolment now open

Empowering job seekers with a developmental disability to build careers that they love. Contact malavikam@icss.ca for referrals or to book your enrolment appointment.

The JobPath workshop is a 12-week in-class program for skill development. The aim is to empower job seekers to build a career they love. The workshops are dedicated to job skills, discovery, and exploration by learning through classroom activities, guest speakers, and community-based experiences. We cover career goal setting, interview skills, life skills, resume building, job retention, and much more! Upon completion, we will collaborate with the job seekers to find employment or a job-hardening activity such as volunteering.
